

KIRPY

BPB-S TYPE STONE CRUSHERS FARM WORK AND CIVIL ENGINEERING

Kirpy's "research, development + innovation program" focused on enhanced machine reliability is ongoing. KIRPY is constantly aware of the concerns of civil public works, farm or mountain professionals and the firm is widening its range to include **BPB-S type** crushers with their adjustable and retractable anvil.

The BPB-S is in its element working on either swatheD or unworked ground. It's demands on tractor power are very reasonable and it is suitable for any site.

BPB-S TYPE

Special anti-projection rear with curtain of chain door

* civil engineering

Rotor

BPB-S

- Double belt drive
- Sealed bearings + chicanes
- Its solid full steel rotor can be fitted with disposable or carbide-tipped hammers.
- Hydraulically adjustable anvil with hydro-pneumatic safety feature.
- Main frame in high elasticity steel.
- Hydraulically controlled rear door.

Scrub clearing

Technical specifications

Type	BPB -S 200	BPB -S 250
Working width	1,80 m	2,44 m
Feed input height	44 cm	
Weight	2350 kg	3250 kg
Number of hammers	16	24
Tractor Hp	100	120
Number of belts	2 x 6 XPB	
Power take-off	1000 rpm
