Circular notching saw

The notching is adjustable in depth according to size of the tobacco feet.

Equipped with two superposed blades of saw, this new system of notching permits:

- A clean notch
- A simplified hanging up to drier
- An easy unhook

◀ The head of cut with his circular saw and his conveyance chain.

Aimed at harvesting **BROWN TOBACCO** and **BURLEY TOBACCO** harvesters execute:

- Cutting of the stalk flush with the ground,
- Notch for hanging up to the drier,
- Conveyance of the stalk,
- Efficiency from 1800 to 2200 stalks/hour.

For a good use of the machine, it's recommended to have a working speed from 1 to 3 Km/H.

TECHNICAL CHARACTERISTICS

Type		RMTD 03
Working width	m.	3,85
Conveyance width	m.	2,50
Total weight	Kg	970
P.T.O speed	rpm	540
Needed power	HP	50/60
Cutting height	cm	3 to 6
Drive		hydraulic
